Wise Girl Selected for Husband Man Who Had Both Seasons for Garnering Wealth.

"Daughter." said the anxious father to the eldest daughter of a brood of seven, "your mother tells me that you have had a proposal." 'Yes, father, I have," demurely re-

plied the young woman. "In fact, I have received several." "I hear the ice man proposed to

you? "He did."

"And you accepted him, of course?" "I did not."

"Unwise child! Think of the money he coins every summer!'

"The plumber also proposed." "Ah! That is better. A man of untold wealth garnered every winter. Beyond doubt you told him 'yes!' "

"No, father." "Wha-a-a-t? Do you mean to tell me you let so golden an opportunity slip by ungrasped?"

"Yes, father. You see, I accepted a man who sells ice in summer and is

a plumber in winter." 'Ah, daughter! Fly to my arms! You make me weep with pride!"

#### DREADED TO EAT. A Quaker Couple's Experience.

How many persons dread to eat their meals, although actually hungry nearly all the time!

Nature never intended this should be so, for we are given a thing called appetite that should guide us as to what the system needs at any time and can digest.

But we get in a hurry, swallow our food very much as we shovel coal into the furnace, and our sense of appetite becomes unnatural and perverted. Then we eat the wrong kind of food or eat too much, and there you areindigestion and its accompanying miseries.

A Phila, lady said:

"My husband and I have been sick and nervous for 15 or 20 years from drinking coffee-feverish, indigestion, totally unfit, a good part of the time, for work or pleasure. We actually dreaded to eat our meals. (Tea is just as injurious, because it contains caffeine, the same drug found in cof-

"We tried doctors and patent medicines that counted up into hundreds of dollars, with little if any benefit.

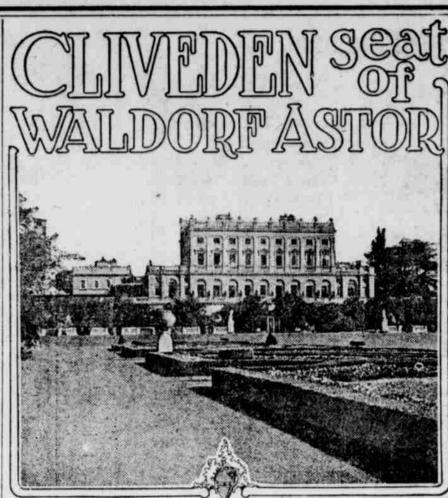

"Accidentally, a small package of Postum came into my hands. I made some according to directions, with surprising results. We both liked it and have not used any coffee since.

"The dull feeling after meals has left us and we feel better every way. We are so well satisfied with Postum that we recommend it to our friends who have been made sick and nervous and miserable by coffee." Name given upon request. Read the little book,

"The Road to Wellville," in pkgs. Postum now comes in concentrated, powder form, called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavor is always uniform. Sold by grocers-50-cup tin 30 cts., 100-cup tin 50 cts.

THE GARDEN FRONT dous natural rock, wood and Barry,

something like Frascati as to its front, in depth. and on the platform is a circular view one opening, and that narrow, which led one to any variety."

John Evelyn made this entry in his diary more than two centuries ago, but the impression made on the modern visitor is no less rich and striking. Nothing of the duke's house remains except the great under-building long and 25 feet wide, but even this that the statues which stand on the of the magnificent terrace, 400 feet the disposition of the stairways. The gardens have been changed and the prospect of the neighboring country is no longer bare, but cultivated and 1906. smiling.

Checkered History. Although Evelyn was right in claim ing for the royal castle a great and unconfined outlook, the view from the terrace at Windsor overlooking Eton college and the meadows scarcely surpasses the splendid picture which meets the eve from the terrace at Cliveden, with the Thames winding like a silver thread through the gaps in a foreground of trees. The house has had an unusually checkered history. There does not seem to have been any building on the site until it was bought by George Villiers, second duke of Buckingham, some time after the restoration. The architect was Captain Wynne, or Winde, a native of Holland and a pupil of Sir Balthazar Gerbier. He was a man of considerable ability, and is, perhaps, best remembered now for his design of Newcastle house, Lincoln's Inn Fields, which remains, though somewhat al-Very little is known of Wynne. He must have been a friend of Samuel Pepys, for he received a twenty-shilling mourning ring at his funeral in 1703, but there is no mention of him in the diary. We have no space here to attempt a sketch of so vivid and contradictory a character as George Villiers. Like Charles II., he dabbled in the arts and sciences, and as Bryan Fairfax wrote of him. spent much on building "in that sore of architecture which Cicero calls insanae substructiones." Unfortunately, Fairfax, the author of the only contemporary biography of the duke, gives no details of his architectural employments. The work at Cliveden was begun about 1666, and among the state papers there is a significant warrant dated June 21, 1677. The duke was then a prisoner in the tower and had permission to go to Cliveden, "attended by Sir John Robinson, to take order about carrying on some buildings of his there, and to remain till the 23d and then return to the tower.

In 1735 more building was done at designed the small octagonal temple supplementary stations in the dominwhich stands southwest of the main building

Stately Structure.

The year 1795 proved disastrous for Cliveden, for on May 20 it was almost wholly consumed by fire, with the exception, we may well suppose, of the "insane substructiones." ## HERE'S CHAMPION FISH STORY

Nova Scotla Comes to the Front With Tale That Bears the Marks of Real Genius.

Not all the fish prevaricators live in the United States, according to the Mariner's Advocate. An editor recently received the following letter:

"I have read an interesting account of singing fish in your paper. It recalled to me the memory of a rather remarkable fish we have in Nova Scotia. It is known as the 'Frost Fish,' because it may be frozen like a lump of ice, but, if placed in water in that condition, it soon thaws out and swims around as vigorously as ever. The natives make use of this property to make ice cream. The fish is caught, frozen, and placed in the cream. In thawing out, it freezes the cream, and its movements at the same time beat the mixture, making it smooth."

Taking them by and large, from Moosehead lake to Puget Sound and from the upper Mississippi to the gulf, we have some very capable and industrious fish liars in this country. But we hand the reel and rod over to Nova Scotia. We have talent in this country; but Nova Scotia is the abode of genius.

Australia Gets Wireless.

The chain of wireless stations around Australasia will in a very few months be an accomplished fact, it is said, and Australia, New Zealand, and the islands will be in constant touch day and night. The station at Awanui Bay, North Auckland, is practically in operation already, although not yet officially taken over by the government. The installation, a thirty kilowatt one, compares very favorably with that at Pennant Hills, Sydney, and with the high power station at Fremantle, will enable Auckland to "speak" to Sydney or Fiji at any time. A similar installation is now in course Cliveden. Glacoda Leoni, the Italian, of erection at The Bluff in the south who was architect of Clandon park, of New Zealand, and there are three

**HOW TO CURE RHEUMATISM** Prominent Doctor's Best Prescription Easily Mixed at Home.

This simple and harmless formula has worked wonders for all who have tried it quickly curing chronic and acute rheumatism and backache. "From your druggist get one ounce of Toris compound (in original sealed package) and one ounce of syrup of Sarsaparilla compound. Take these two ingredients home and put them in a half pint of good whiskey. Shake the bottle and take a tablespoonful before each meal and at bed-time." Good results come after the first few doses. If your druggist does not have Toris compound in stock he will get it for you in a few hours from his wholesale house. Don't be influenced to take a patient medicine instead of this, Insist on having the genuine Toris compound in the original, obe-ounce, sealed, yellow package. This was published here last winter and hundreds of the worst cases were cured by it in a short time. Published by the Giobe Pharmaceutical laboratories of Chicago.

Suffer From Plague of Rats.

A "pied piper of Hamerlin" is need ed at Santa Paula, Cal. Thousands of rats, and all big wood rats, have invaded the place, and the situation is such that women are afraid to go to church. The rats seem to have a preference for churches and on several occasions have forced the feminine attendance at services to take to the high benches. The city authorities are seeking means to abate the pest. The rats are believed to have been in the forests.

Pierce made a pure glyceric extract which has been favorably known for
forty years. He called it "GOLDEN MEDICAL DISCOVERY." This
covery" purifies the blood and tones up the stomach and the entire system in
ro's own way. It's just the tissue builder and tonic you require.

Dr. Pierce's Golden Medical Discovery has the endorsement of many thousands that it has cured them of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

"In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, the 'Golden Medical Discovery' is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The 'Discovery' is not so good for acute coughs arising from sudden colds, nor must it be

expected to cure consumption in its advanced stages-no medicine will do thatbut for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken."

## RASH ALMOST COVERED FACE

Warrenville, O .- "I have felt the effects of blood poisoning for eighteen years. I was never without some eruptions on my body. The terrible itching caused me much suffering and discomfort, while the rubbing and scratching made it worse. Last spring I had a terrible breaking out of blistery sores on my arms and limbs. My face and arms were almost covered with rash. I could not sleep and lost nineteen pounds in five weeks. My face was terribly red and sore, and felt as if my skin was on fire. At last I tried a sample of Cuticura Soap and Cuticura Ointment and I found them so cool, soothing and healing, that L got some Cuticura Soap, Cuticura Ointment, and Resolvent. I bathed with hot water and Cuticura Soap, then I applied the Cuticura Ointment every night for two months, and I am cured of all skin eruptions." (Signed) Mrs. Kathryn Krafft, Nov. 28, 1911.
